Subject: "Petition to withdraw holding of abandonment under 37 CFR 1.181 for non-receipt of notice to file corrected papers"

Ref: (1) Application Number 10/735,333 Filed: December 12, 2003 Title: "System and Method for Universal Identification of Biological Humans"

(2) Your letter dated May 01, 2006 and our telephone conversation on 06/21/06.

Dear Madam:

This letter is a petition to withdraw the holding of abandonment in respect of Application Number 10/735,333 filed: December 12, 2003. As can be examined from perusal of the enclosed 'Patent Applications Tracking Document,' I have been maintaining up to date records of all patent applications filed, replies and confirmations received, follow up action needed with timeframe thereof, and the result/resolution achieved.

As can be examined from enclosed tracking documentation in case of Application Number 10/735,333, the notice to file corrected papers was never received at my end by mail. Though the correspondence address change request was subsequently made, I do have an arrangement in place to date for collecting all mail delivered to my previous address (3004 Montgomery St, Durham, NC 27705). The notice of abandonment in respect of 10/735,333 was delivered at previous address, and received by me, as documented. Upon follow up with USPTO, I received the notice to file corrected papers by fax, and took immediate action to file corrected papers.

It is now requested that the holding of abandonment in respect of Application 10/735,333 may kindly be withdrawn.

Revised "Abstract" in respect of Application Number 10/725,333 Filed Dec 12, 2003: (1 page) is also enclosed. Total number of pages faxed (including this petition letter): 5

Respectfully submitted,

(Dr. Abhinav Aggarwal)
